

Ahoy there!

Calling Village Dads!

The Community Council have committed funds to purchase the above pirate play ship for the village play park.

However, before an order is placed it is **essential** that a group of at least half a dozen people are prepared to undertake the planning layout, installation of safety surfacing and ground preparation etc.

Without such a group, we cannot place the order as the ship will arrive ready for immediate installation on site.

If you can help with this project, please don't delay in contacting any Council member – ideally before Wednesday night's meeting!

The ship is supplied by the same company as the train already in the play park, and is sure to provide years of fantastic fun for families.

We need YOU!
