

THE WAY AHEAD

In the recent ballot, the Edinburgh architects, Reiach and Hall, were voted as winners of the Community Centre Architectural Competition. The company are delighted to have won and now look forward to working closely with our community to achieve the design that is right for us, even if this means going back to a blank sheet of paper.

The process now continues with two very important steps:

1. A User Group Forum with representatives from the Amenities Committee, WRI, Playgroup, CATs, Over 60s, etc. The objective is to reach consensus on the way that we go forward together. The date for this meeting will be announced shortly.
2. On April 14 we are holding a one-day architectural workshop with several senior representatives from Reiach and Hall. Sarah Menzies from CADISPA (Conservation and Development for Sparsely Populated Areas) will facilitate the workshop. Once again, further details will be announced shortly.

CASCT - working with our community to build a new heart in our community
